

January 2009

Congratulations to Peter, our new Trader of the Month who has been consistently growing both his confidence and trading account.

Peter joined Traders International in May 2008 with absolutely no trading experience. After going to one of the 'Secret's to Eminis' Seminars,

"I realised that this opportunity was the answer to which I had been searching for many years."

After completing the eLearning course and a comprehensive simulation trading period, Peter stepped up to the plate and took his first trade on the 13th of November, 2008

"After a couple of days of hesitations; not entering trades and entering trades late, I gained confidence in my trading ability and finished the month of November up \$1075.00. In the last week of November I made a phenomenal 127.5% ROI !!"

Don't miss out on your own opportunity of a life-time and register for one of our introductory, no-strings attached free seminars. Don't you deserve to make returns like these?
