

December 2008

Introducing Leanne, our new Trader of the Month who has been consistently growing her trading account.

Leanne joined Traders International on July 1st this year and loves trading in the 24/5 Trading Room during the day and early evening.

"In the last 2 weeks of October I finally turned my trading around and made a profit of \$1532.50, largely in the pre market. That was 176% ROI in 2 weeks!"

Since then Leanne has continued to grow her trading account at a steady rate making over \$900 in the 1st week of November.

It's great to see that smart investors are still making profits in these financially volatile times!
